## APPRECIATION

To friends and colleagues around the world,

It is through your partnership with EducatorsAbroad Ltd. (EA) that we are able to promote teaching as a global profession. Your involvement helps us to integrate multiple perspectives into educational decision making and to demonstrate the value of school and criterion based professional development in enhancing the ability of educators to prepare young people for the world in which they will live.

To our university and school partners, we celebrate the confidence you have in our work. We will do our best to continue earning your trust as we learn from each other how to prepare highly effective educators for a changing world.

Participants, your actions demonstrate commitment to being model members of our profession by achieving new qualifications and partnering with colleagues from different cultural backgrounds to develop your ability as educators. We are proud to have played a part in your personal and professional development and sincerely hope that you will continue your association with EA.

EA colleagues, your personal character, talents, professionalism, and care and concern for each EA participant are the basis on which EA has earned the respect of educators around the world. Thank you.

Individuals and agencies, who are committed to improving the effectiveness of educators worldwide, we invite your participation in the EducatorsAbroad Ltd. network of professional educators. Together, we can increase educational opportunity for young people in all corners of our world.

Offered in friendship, and on behalf of my EA colleagues.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig Kisson".
